- Research-to-Strategy Translation

EDUCATION

Case Western Reserve University
Certification, Full Stack Web Development MERN Stack: MongoDB, Express, React, Node.js
Degree date: January 26, 2019

Cuyahoga Community College
Associate, Applied Business Visual Communication and Design
Degree date: August 2008

EMPLOYMENT HISTORY

Sr. Product Designer, Digital Claims CX and Automation (Total Loss, Towing, Storage)
State Farm
November 2024 – June 2026

- Lead end-to-end experience strategy for AI-driven and automated Total Loss workflows, spanning customer facing and internal claims platforms
- Re-architected complex, regulated decision systems involving towing, storage, salvage, and subrogation
- Partnered with data, engineering, legal, and compliance teams to ensure explainability, auditability, and human-in the-loop controls
- Served on design governance teams, shaping standards and guardrails for enterprise-scale systems
- Translated research insights into defensible design frameworks suitable for regulatory scrutiny
- Designed the customer-facing decision flow for an alternative service-delivery model, mapping intake branching, consent and expectation-setting states, and fallback paths to existing service options

UX Design Consultant, Enterprise Mobile App
Nationwide Insurance
March 2021 – August 2024

- Led enterprise-scale redesign of flagship mobile app with roadside assistance feature, first to introduce GPS tracking
- Cross team collaboration with product, engineering, analytics and leadership as well as external vendor partners.
- Reduced roadside-related outbound calls from 34% to 4% and customer complaints by 25%; increased NPS by 11%.
- Increased digital self-service success rates from 54% to 96%
- Set 8 new industry benchmarking criteria and named “Best In Class” by Keynova, 2023
- Participated in governance efforts establishing UX ethical guardrails for AI-enabled experiences, including explain ability, traceability, and risk mitigation.

Principal UX Designer

Talis Clinical

April 2019 — August 2020

- Founding designer for clinical decision support platform, scaling AI-assisted workflows in high acuity settings (pre Chat-GPT)
- Designed and delivered platform of role-based remote monitoring tools, including Covid-19 remote patient monitoring app, along with redesign of existing flagship app.
- Increased ECMO patient monitoring ratio from 1:1 to 1:12.
- Co-developed with Beth Israel Deaconess Hospital in Boston, MA
- Co-Created patient momentum algorithm with resorting Patient List to automate triage and ensure the right help arrived at the right time

eLearning Experience Designer

Vitalyst, LLC

April 2018 — February 2019

- Developed change enablement solutions for Microsoft Enterprise products.
- Produced training videos and materials using Premier Pro, After Effects, and Camtasia.

Social Media Director

Greater Cleveland Fisher House

August 2014 — December 2018

- Developed social strategy for a $4M fundraising campaign.
- Grew social reach and coordinated messaging for events.

Creative Consultant (Freelance)

The Visual Influence

April 2011 — December 2018

- Provided creative solutions for various design needs.

Vendome Group, LLC

Sr. Graphic Designer

March 2010 — August 2013

- Senior Designer for Addiction Professional and Behavioral Healthcare magazines.
- Received 2 ASHPE Awards for design excellence.

Department of Defense (Germany)

Marketing Graphic Designer

April 2009 — September 2009

- Designed marketing materials for the US Army Garrison Ansbach community.
